Our Series IV constructed with a fiberglass 3-year frame ... let us show you how it can reduce your costs by up to 30% over traditional umbrellas. Ideal for beverage promotions, distributors, and restaurants.

Here is how to save money! Our Series IV umbrella utilizes a rugged single-unit fiberglass frame that has been designed and manufactured to withstand the elements for 3 years, possibly longer. Instead of changing out both the frame and canopy, you can now easily change-out the canopy on this frame thereby keeping your image fresh and current. The result is big savings with a positive environmental impact.

Also swap out canopies for special sporting events, holidays, festivals, or to promote specialty beers.
